INDEX OF SUBJECTS

A

Adenoma. — Papillary . . . of the urinary bladder in the ox. Report of a case (*Feldman*) ---------- 205

Adenomas. — Blood vessel invasion in . . . of the thyroid gland (*Warren*) ---------- 604*

Adenomas. — The significance of the lymphoid tissue in exophthalmic goiters and so-called toxic . . . (*Warthin*) ---------- 605*

Alcoholism. — Degenerative changes in the male germinal epithelium in acute . . . and their possible relationship to blastophthoria (*Weller*) - 1

Allergy. — The identity of animal anaphylaxis and human . . . (protein hypersensitiveness) (*Ratner and Gruehl*) ---------- 583*

Alternating currents. — An experimental study of the effects of heat induced by high frequency . . . (*Jacobsen and Hosoi*) ---------- 615*

Amyloid. — A case of myeloma with unusual . . . deposition (*Paige*) -- 629*

Amyloidosis. — A pathological study of primary myocardial . . . (*Larsen*) ---------- 147

Amyloidosis. — Generalized . . . of the muscular systems (*Warren*) --- 161

Anaphylaxis. — The identity of animal . . . and human allergy (protein hypersensitiveness) (*Ratner and Gruehl*) ---------- 583*

Anemia. — Studies in bartonella muris . . . (*Marmorston-Gottesman and Perla*) ---------- 628*

Anemia. — The protective effect of splenic transplants in albino rats against bartonella muris . . . (*Perla and Marmorston-Gottesman*) -- 592*

Anemias. — Erythroleucosis and the . . . of the fowl (*Furth*) ------- 628*

Aneurysm. — Congenital . . . of the interventricular septum. Report of two cases (*Cannell*) ---------- 477

Angiomas. — Multiple intracranial . . . (*Hosoi*) ---------- 235

Antibodies. — Penetration of . . . in the central nervous system (*Freund*) 585*

Antibodies. — Progress in characterizing . . . and antibody action (*Mudd, Lucké, McCutcheon and Strumia*) ---------- 588*

Antigen. — Standardization of . . . (*Levine*) ---------- 628*

Appendix. — Contribution to the study of the sympathetic nerves of the . . . The musculonervous complex of the submucosa (*Masson*) --- 217

Argentaffin. — The significance of the muscular "stroma" of . . . tumors (carcinoids) (*Masson*) ---------- 499

Arneth count. — The value of the . . . in determining the age of neutrophile (amphophile) leucocytes (rabbit). The action of benzol VIII (*Hunt and Weiskotten*) ---------- 175

* Abstract of paper presented at the meeting of the American Association of Pathologists and Bacteriologists held at New York City, April 17 and 18, 1930.

Arteries. — Relation of the follicles and the follicular . . . of the spleen (*MacNeal and Ravid*) ---------- 628*

Arthritis. — Characteristics of streptococci isolated from patients with rheumatic fever and chronic infectious . . . (*Cecil, Nicholls and Stainsby*) ---------- 619*

Arthritis. — Further studies on the cervix uteri as a focus of infection in chronic . . . (*Famulener and Matthews*) ---------- 597*

Arthritis. — Subcutaneous nodules in chronic infectious . . . (*Dawson and Pappenheimer*) ---------- 625*

Aschoff body. — Histological studies on the . . . (*Gross and Ehrlich*) --- 621*

Auricle. — Marked dilatation of the left . . . of the heart. Report of a case (*Burkhardt*) ---------- 463

Avian. — . . . tuberculosis in normal and vaccinated rabbits (*Medlar*) -- 593*

B

Bacillus. — Fulminant generalized infection with the pfeiffer . . . (*Sheplar, Sophian and MacNeal*) ---------- 629*

Bacteria. — The cytochrome of . . . (*Coulter and Stone*) ---------- 591*

Bacteria. — Tissue reactions in rabbits following intravenous injection of . . . (*Nye and Parker*) ---------- 381

Bacteriophage. — The behavior of the colon bacillus and its specific . . . in urine cultures (*Frisbee and MacNeal*) ---------- 628*

Bartonella muris. — Studies in . . . anemia (*Marmorston-Gottesman and Perla*) ---------- 628*

Bartonella muris. — The protective effect of splenic transplants in albino rats against . . . anemia (*Perla and Marmorston-Gottesman*) - 592*

Benzol. — The normal life span of the neutrophile (amphophile) leucocyte (rabbit). The action of . . . IX (*Weiskotten*) ---------- 183

Benzol. — The value of the Arneth count in determining the age of neutrophile (amphophile) leucocytes (rabbit). The action of . . . VIII (*Hunt and Weiskotten*) ---------- 175

Blastomycosis. — Immunologic studies in . . . (*Dulaney*) ---------- 584*

Blastophthoria. — Degenerative changes in the male germinal epithelium in acute alcoholism and their possible relationship to . . . (*Weller*) - 1

Blood changes. — . . . during trypanosome septicemia (*Linton*) ------ 627*

Blood vessel. — . . . invasion in adenomas of the thyroid gland (*Warren*) 604*

Brain. — Histological studies on the . . . of a craniopagus (*Löwenberg*) - 469

Buchner. — The . . . renaissance in immunology (*Manwaring*) ------ 590*

C

Calcification. — The . . . of tubercles by means of irradiated ergosterol (*Spies*) ---------- 337

Cancer cells. — Metastatic inoculation of a meningioma by . . . from a bronchiogenic carcinoma (*Fried*) ---------- 47

Cancers. — Small cell . . . of the lung (*Karsner and Saphir*) ------- 628*

Carcinoid. — Metastasizing ". . ." tumor of jejunum (*Gáspár*) ------ 515
Carcinoid. — Metastasizing . . . tumor of jejunum (*Gáspár*) -------- 628*
Carcinoids. — The significance of the muscular "stroma" of argentaffin tumors (. . .) (*Masson*) ---------- 499
Carcinoma. — Metastatic . . . in the spleen. Report of a case (*Dial*) --- 79
Carcinoma. — Skeletal metastases in . . . of the thyroid (*Levin*) ------ 563
Carcinoma. — Skeletal metastases in . . . of the thyroid (*Levin*) ------ 605*
Carcinomas. — Small cell . . . of the lung (*Karsner and Saphir*) ------ 553
Casts. — The relation of the type of renal epithelial repair and renal function to the number and type of . . . in the urine (*Mac Nider*) - 596*
Cat. — The venous drainage of the . . . spleen (*Robinson*) ---------- 19
Central nervous system. — Penetration of antibodies in the . . . (*Freund*) ---------- 585*
Cerebrospinal nerves. — Silver staining of the endoneurial fibers of the . . . (*Laidlaw*) ---------- 435
Cervix uteri. — Further studies on the . . . as a focus of infection in chronic arthritis (*Famulener and Matthews*) ---------- 597*
Chemotherapy. — Attempted . . . in experimental rabies (*Hoyt and Jungeblut*) ---------- 627*
Colon bacillus. — Skin reactions to the soluble toxic substance of the . . . (*Steinberg*) ---------- 584*
Colon bacillus. — The behavior of the . . . and its specific bacteriophage in urine cultures (*Frisbee and Mac Neal*) ---------- 628*
Cor biatriatum triloculare. — . . ., complicated by other grave cardiac anomalies and compensatory development of anastomoses between bronchial and pulmonary circulations with formation of congenital arteriovenous aneurysm in lungs. From a man aged 20 years with complete congenital heart-block and death from pulmonary hemorrhage (*Abbott*) ---------- 627*
Craniopagus. — Histological studies on the brain of a . . . (*Löwenberg*) 469
Cytochrome. — The . . . of bacteria (*Coulter and Stone*) ---------- 591*

D

Degenerative changes. — . . . in the male germinal epithelium in acute alcoholism and their possible relationship to blastophthoria (*Weller*) 1
Del Río-Hortega's method. — A further modification of . . . of staining oligodendroglia (*Penfield*) ---------- 445
Diagnosis. — Rapid . . . of intracranial tumors by supravital study (*Eisenhardt and Cushing*) ---------- 615*
Dilatation. — Marked . . . of the left auricle of the heart. Report of a case (*Burkhardt*) ---------- 463
Ducks. — Sarcoma in wild mallard . . . (*Belding*) ---------- 628*

E

Endocardial. — . . . pockets (*Saphir*) ---------- 733
Endocardial. — . . . pockets of the left auricle and ventricle (*Saphir*) . . 629*

Endocarditis. — A congenital anomaly of the heart (truncus arteriosus communis with subacute . . .) (*Finley*) - - - - - - - - - - - - - - - - - - - 317

Endocarditis. — Studies on the pathogenesis of bacterial . . . (*Koch and Semsroth*) - 618*

Endocarditis. — (*a*) The spleen in subacute bacterial . . . of the viridans type. (*b*) Systematic classification of splenic pathology (*Fox*) - - - - 610*

Endoneurial fibers. — Silver staining of the . . . of the cerebrospinal nerves (*Laidlaw*) - 435

Epidemic meningitis. — A new meningococcus-like organism (neisseria flavescens, n. sp.) from . . . (*Branham*) - - - - - - - - - - - - - - - - - - - 626*

Epithelium. — The relation of the . . . to the mucosa in pachydermia laryngis (*Meeker*) - 628*

Ergosterol. — Renal lesions with retention of nitrogenous products produced by massive doses of irradiated . . . (*Spies and Glover*) - - - - - 485

Ergosterol. — The calcification of tubercles by means of irradiated . . . (*Spies*) - 337

Ergotism. — The pathological similarity of thrombo-angiitis obliterans and endemic . . . (*Kaunitz*) - 299

Erythroleucosis. — . . . and the anemias of the fowl (*Furth*) - - - - - - - - 628*

Exophthalmic goiters. — The significance of the lymphoid tissue in . . . and so-called toxic adenomas (*Warthin*) - - - - - - - - - - - - - - - - - - - 605*

F

Fat pads. — The vascularization of the epicardial and periaortic . . . (*Robertson*) - 209

Fibrosarcoma. — Neoplasma of the pleura-mesothelioma and . . . . . (*Klemperer and Rabin*) - 628*

Fibrosis. — . . . of lung consequent to pulmonary arteriocapillary . . . (*Moschcowitz*) - 628*

Follicles. — Relation of the . . . and the follicular arteries of the spleen (*MacNeal and Ravid*) - 628*

Fowl. — Erythroleucosis and the anemias of the . . . (*Furth*) - - - - - - - 628*

Fowl-pox. — A comparison of the lesions of . . . and vaccinia in the chick with especial reference to the virus bodies (*Woodruff*) - - - - - 169

Fowl-pox. — The nature of . . . virus as indicated by its reaction to treatment with potassium hydroxide and other chemicals (*Goodpasture and Woodruff*) - 699

Fowl-pox. — The relation of the virus of . . . to the specific cellular inclusions of the disease (*Woodruff and Goodpasture*) - - - - - - - - - - 713

G

Gases. — The local effect of the injection of . . . into the subcutaneous tissues (*Wright*) - 87

Germinal epithelium. — Degenerative changes in the male . . . in acute alcoholism and their possible relationship to blastophthoria (*Weller*) 1

Glioma. — Neuro-epithelioma (. . .) of retina with metastases (*Hu*) - - 27

Glomeric. — . . . tumor of the skin (*Simard*) - - - - - - - - - - - - - - - - - - 629*

Glomeruli. — The total number of . . . in the congenitally asymmetrical kidney (*Moore*) - 199

Glomeruli. — The total number of . . . in the normal human kidney (*Moore*) - 628*

Glomerulonephritis. — Production of . . . in rabbits by streptococcus hemolyticus (*Menten*) - 595*

Glomerulus. — Histological changes in the renal . . . in essential (primary) hypertension. A study of fifty-one cases (*McGregor*) - - - 347

Goiter. — Studies in the etiology of simple . . . (*Webster and Chesney*) - - 275

Goiter. — The essential thyroid changes in . . . (*Marine*) - - - - - - - - - - 607*

Goiters. — The thymus gland in toxic and non-toxic . . . (*Giordano*) - - 605*

Granulation tissue. — Origin of the perivascular phagocytes of . . . (*McJunkin*) - 39

Guinea pigs. — Studies on the submaxillary virus of . . . II. The nuclear cell, nucleocytoplasmic and inclusion-nuclear indices of the affected cells (*Scott and Pruett*) - 53

Gummas. — Multiple . . . of the heart in the new born (*Williams*) - - - 573

H

Heart. — A congenital anomaly of the . . . (truncus arteriosus communis with subacute endocarditis) (*Finley*) - - - - - - - - - - - - - - - - 317

Heart. — Marked dilatation of the left auricle of the . . . Report of a case (*Burkhardt*) - 463

Heart. — Multiple gummas of the . . . in the new born (*Williams*) - - - - 573

Heart. — Quantitative observations on the semilunar valves of the . . . (*Gross*) - 618*

Heat. — An experimental study of the effects of . . . induced by high frequency alternating currents (*Jacobsen and Hosoi*) - - - - - - - - - 615*

Herpes simplex. — A comparative histological study of acute meningoencephalitis produced in rabbits by the viruses of neurovaccinia and . . . (*Spooner*) - 767

Hodgkin's disease. — A case of lymphoblastoma, . . . and tuberculosis (*MacMahon and Parker*) - 367

Horse. — Experimental pneumococcus infection in the . . . (*Curphey*) - 628*

Hypertension. — Histological changes in the renal glomerulus in essential (primary) . . . A study of fifty-one cases (*McGregor*) - - - - - - - - - - 347

Hypophysis. — The neutrotropism in the human testicle and . . . (*Berger*) - 628*

I

Immunity. — Cellular . . . in acquired avian malaria (*Cannon, Talliaferro and Talliaferro*) - 592*

Immunity. — Studies in tissue- . . . Cellular reactions of the skin of the guinea pig as influenced by local active immunization (*Cannon and Pacheco*) - 749

Immunity. — The mechanism of the influence which an infectious process exerts on the . . . response of the organism (*Dienes*) - - - - - - - - - - 588*

Immunology. — The Buchner renaissance in . . . (*Manwaring*) - - - - - - 590*

Inclusions. — Cytoplasmic . . . produced by the submaxillary virus (*Pearson*) - 261

Inclusions. — The relation of the virus of fowl-pox to the specific cellular . . . of the disease (*Woodruff and Goodpasture*) - - - - - - - - - - - - - - 713

Infection. — Chronic foci of . . . experimentally produced (*Moon*) - - - - 596*

Infection. — Further studies on the cervix uteri as a focus of . . . in chronic arthritis (*Famulener and Matthews*) - - - - - - - - - - - - - - - - 597*

Inflammation. — The biology of . . . (*Pribram*) - - - - - - - - - - - - - - - - 629*

Inflammations. — Specific and special . . . of the nervous system (*Flexner*) - 595*

Inflammatory. — Fixation of iron by an . . . reaction (*Menkin*) - - - - - 628*

Injection. — The local effect of the . . . of gases into the subcutaneous tissues (*Wright*) - 87

Interventricular septum. — Congenital aneurysm of the . . . Report of two cases (*Cannell*) - 477

Intracranial. — Diagnosis of . . . tumors by supravital technique (*Eisenhardt and Cushing*) - 541

Intracranial. — Rapid diagnosis of . . . tumors by supravital study (*Eisenhardt and Cushing*) - 615*

Intravenous injection. — Tissue reactions in rabbits following . . . of bacteria (*Nye and Parker*) - 381

Iron. — Fixation of . . . by an inflammatory reaction (*Menkin*) - - - - - 628*

Islands. — A study of the . . . of Langerhans in vivo (*Berg*) - - - - - - - 609*

J

Jejunum. — Metastasizing "carcinoid" tumor of . . . (*Gáspár*) - - - - - - 515

Jejunum. — Metastasizing carcinoid tumor of . . . (*Gáspár*) - - - - - - - - 628*

K

Kidney. — Regeneration of liver and . . . following yellow fever (*Klotz and Belt*) - 689

Kidney. — The total number of glomeruli in the congenitally asymmetrical . . . (*Moore*) - 199

Kidney. — The total number of glomeruli in the normal human . . . (*Moore*) - 628*

L

Langerhans. — A study of the islands of . . . in vivo (*Berg*) - - - - - - - - 609*

Laryngis. — The relation of the epithelium to the mucosa in pachydermia . . . (*Meeker*) - 628*

Leucocyte. — The normal life span of the neutrophile (amphophile) . . . (rabbit). The action of benzol IX (*Weiskotten*) - - - - - - - - - - - - - - 183

Leucocytes. — The relative phagocytic ability of monocytes and . . . (*Luckè, Strumia, McCutcheon and Mudd*) - - - - - - - - - - - - - - - - 594*

Leucocytes. — The value of the Arneth count in determining the age of neutrophile (amphophile) . . . (rabbit). The action of benzol VIII (*Hunt and Weiskotten*) - 175

Leukemia. — A comparison of four lines of mouse . . ., transmitted by inoculation (*Richter and MacDowell*) - 612*

Leukemia. — Report of case of acute . . . with autopsy (*Crawford*) - - - 628*

Lipoids. — A study of the effect of tubercle bacillus . . . on the tuberculin reaction (*Long and Vorwald*) - 587*

Liver. — Regeneration of . . . and kidney following yellow fever (*Klotz and Belt*) - 689

Liver. — The pathology of the . . . in yellow fever (*Klotz and Belt*) - - - 663

Lung. — Fibrosis of . . . consequent to pulmonary arterio-capillary fibrosis (*Moschcowitz*) - 628*

Lung. — Small cell cancers of the . . . (*Karsner and Saphir*) - - - - - - - 628*

Lung. — Small cell carcinomas of the . . . (*Karsner and Saphir*) - - - - - 553

Lymphatic tumor. — Report of the . . . registry (*Callender*) - - - - - - - - 598*

Lymphoblastoma. — A case of . . ., Hodgkin's disease and tuberculosis (*MacMahon and Parker*) - 367

Lymphoid tissue. — The significance of the . . . in exophthalmic goiters and so-called toxic adenomas (*Warthin*) - - - - - - - - - - - - - - - - - - 605*

M

Madura foot. — . . . due to monosporium apiospermum in a native American (*Gay and Bigelow*) - 325

Malaria. — Cellular immunity in acquired avian . . . (*Cannon, Talliaferro and Talliaferro*) - 592*

Medulloblastomas. — Further notes on the cerebellar . . . The effect of roentgen radiation (*Bailey*) - 125

Meningioma. — Metastatic inoculation of a . . . by cancer cells from a bronchiogenic carcinoma (*Fried*) - 47

Meningiomas. — . . . With special reference to the multiple intracranial type (*Hosoi*) - 245

Meningococci. — The type distribution of . . . in the United States during 1928–1929 (*Branham*) - 584*

Meningococcus. — A new . . . -like organism (neisseria flavescens, n. sp.) from epidemic meningitis (*Branham*) - - - - - - - - - - - - - - - - - - 626*

Meningo-encephalitis. — A comparative histological study of acute . . . produced in rabbits by the viruses of neurovaccinia and herpes simplex (*Spooner*) - 767

Mesothelioma. — Neoplasma of the pleura- . . . and fibrosarcoma (*Klemperer and Rabin*) - 628*

Metastases. — Skeletal . . . in carcinoma of the thyroid (*Levin*) - - - - - - 563

Metastases. — Skeletal . . . in carcinoma of the thyroid (*Levin*) - - - - - 605*

Metastatic inoculation. — . . . of a meningioma by cancer cells from a bronchiogenic carcinoma (*Fried*) ---------- 47

Mixed tumors. — . . . of the palate (*D'Aunoy*) ---------- 137

Moniliasis. — A fatal case of generalized . . . with special reference to the pathology (*Haythorn, Robinson and Johnson*) ---------- 628*

Monocytes. — The relative phagocytic ability of . . . and leucocytes (*Lucké, Strumia, McCutcheon and Mudd*) ---------- 594*

Monosporium apiospermum. — Madura foot due to . . . in a native American (*Gay and Bigelow*) ---------- 325

Mouse. — A comparison of four lines of . . . leukemia, transmitted by inoculation (*Richter and MacDowell*) ---------- 612*

Mucoid. — . . . neoplasms of the urinary tract (*Alter and McCarthy*) -- 627*

Muscular "stroma." — The significance of the . . . of argentaffin tumors (carcinoids) (*Masson*) ---------- 499

Muscular systems. — Generalized amyloidosis of the . . . (*Warren*) --- 161

Musculonervous complex. — Contribution to the study of the sympathetic nerves of the appendix. The . . . of the submucosa (*Masson*) - 217

Myeloma. — A case of . . . with unusual amyloid deposition (*Paige*) -- 629*

Myeloma. — Nephrosis in multiple . . . (*Perla and Hutner*) -------- 285

Myocardial. — A pathological study of primary . . . amyloidosis (*Larsen*) ---------- 147

N

Neoplasma. — . . . of the pleura-mesothelioma and fibrosarcoma (*Klemperer and Rabin*) ---------- 628*

Neoplasms. — Mucoid . . . of the urinary tract (*Alter and McCarthy*) - 627*

Nephrosis. — . . . in multiple myeloma (*Perla and Hutner*) --------- 285

Nervous system. — Specific and special inflammations of the . . . (*Flexner*) ---------- 595*

Neuro-epithelioma. — . . . (glioma) of retina with metastases (*Hu*) --- 27

Neurovaccinia. — A comparative histological study of acute meningoencephalitis produced in rabbits by the viruses of . . . and herpes simplex (*Spooner*) ---------- 767

Neutrophile. — The normal life span of the . . . (amphophile) leucocyte (rabbit). The action of benzol IX (*Weiskotten*) ---------- 183

Neutrophile. — The value of the Arneth count in determining the age of . . . (amphophile) leucocytes (rabbit). The action of benzol VIII (*Hunt and Weiskotten*) ---------- 175

Neutrotropism. — The . . . in the human testicle and hypophysis (*Berger*) ---------- 628*

Nodules. — Subcutaneous . . . in chronic infectious arthritis (*Dawson and Pappenheimer*) ---------- 625*

O

Oligodendroglia. — A further modification of Del Rfo Hortega's method of staining . . .(*Penfield*) ---------- 445

Ostitis fibrosa. — Experimental . . . (fibrous osteodystrophy) in guinea pigs on normal diet, injected with parathormone (*Jaffé, Bodansky and Blair*) ---------- 613*

Ovarii. — Struma . . . (*Goforth*) ---------- 628*

Ovary. — Struma of . . . (*Plaut*) ---------- 603*

P

Pachydermia. — The relation of the epithelium to the mucosa in . . . laryngis (*Meeker*) ---------- 628*

Palate. — Mixed tumors of the . . . (*D'Aunoy*) ---------- 137

Parathormone. — Experimental ostitis fibrosa (fibrous osteodystrophy) in guinea pigs on normal diet, injected with . . . (*Jaffé, Bodansky and Blair*) ---------- 613*

Periarteritis nodosa. — A clinical and pathological study of . . . A report of five cases, one histologically healed (*Arkin*) ---------- 401

Pfeiffer. — Fulminant generalized infection with the . . . bacillus (*Sheplar, Sophian and MacNeal*) ---------- 629*

Phagocytes. — Origin of the perivascular . . . of granulation tissue (*McJunkin*) ---------- 39

Phagocytic ability. — The relative . . . of monocytes and leucocytes (*Lucké, Strumia, McCutcheon and Mudd*) ---------- 594*

Pleura. — Neoplasma of the . . . -mesothelioma and fibrosarcoma (*Klemperer and Rabin*) ---------- 628*

Pneumococcus. — Experimental . . . infection in the horse (*Curphey*) - 628*

Pockets. — Endocardial . . . (*Saphir*) ---------- 733

Pockets. — Endocardial . . . of the left auricle and ventricle (*Saphir*) - - 629*

Poliomyelitis. — Experimental studies in . . . (*Thompson*) ---------- 594*

Potassium hydroxide. — The nature of fowl-pox virus as indicated by its reaction to treatment with . . . and other chemicals (*Goodpasture and Woodruff*) ---------- 699

Potassium iodide. — Changes in the thyroid gland of the guinea pig following a period of administration of . . . (*Rabinovitch*) -------- 71

Potassium iodide. — The effect of . . . upon the thyroid gland of underfed guinea pigs (*Rabinovitch and Gray*) ---------- 75

Precipitation test. — Further studies on the . . . for syphilis (*Weiss*) - - 583*

Pseudotuberculosis. — . . . of the thyroid gland (*Morse*) ---------- 600*

Psittacosis. — Etiology of . . . (*Krumwiede, McGrath and Oldenbusch*) - 585*

R

Rabbit. — The evolution of massive pulmonary tuberculosis in the . . . (*Medlar and Sasano*) ---------- 628*

Rabbits. — Avian tuberculosis in normal and vaccinated . . . (*Medlar*) - 593*

Rabies. — Attempted chemotherapy in experimental . . . (*Hoyt and Jungeblut*) ---------- 627*

Regeneration. — . . . of liver and kidney following yellow fever (*Klotz and Belt*) - 689

Registry. — Report of the lymphatic tumor . . . (*Callender*) - - - - - - - - - - 598*

Renal. — The relation of the type of . . . epithelial repair and . . . function to the number and type of casts in the urine (*MacNider*) 596*

Renal lesions. — . . . with retention of nitrogenous products produced by massive doses of irradiated ergosterol (*Spies and Glover*) - - - - - 485

Reticulin. — . . . (*Nageotte and Guyon*) - 631

Reticulum. — . . . Its origin. The occurrence of . . . fibrils in capillary endothelium. A new method of demonstration. II. The finer capillary bed (*Rinehart*) - 525

Reticulum. — The histiogenesis and development of . . . ; its widespread occurrence in the adult organism. A new method of demonstration (*Rinehart*) - 614*

Retina. — Neuro-epithelioma (glioma) of . . . with metastases (*Hu*) - - 27

Rheumatic. — Experimental streptococcic inflammation in immune and hypersensitive animals with special reference to the pathogenesis of . . . lesions (*Clawson*) - 623*

Rheumatic fever. — Characteristics of streptococci isolated from patients with . . . and chronic infectious arthritis (*Cecil, Nicholls and Stainsby*) - 619*

Rhinosporidium seeberi. — . . .: pathological histology and report of the third case from the United States (*Weller and Riker*) - - - - - - - - - - 721

Rhinosporidium seeberi. — . . .: pathology and report of third North American case (*Weller*) - 591*

Roentgen radiation. — Further notes on the cerebellar medulloblastomas. The effect of . . . (*Bailey*) - 125

S

Sarcoma. — . . . in wild mallard ducks (*Belding*) - - - - - - - - - - - - - - - - - - -

Spleen. — Relation of the follicles and the follicular arteries of the . . . (*MacNeal and Ravid*) - 628*

Spleen. — The pathology of the . . . in yellow fever (*Klotz and Belt*) - - 655

Spleen. — (*a*) The . . . in subacute bacterial endocarditis of the viridans type. (*b*) Systematic classification of splenic pathology (*Fox*) - - - - 610*

Spleen. — The venous drainage of the cat . . . (*Robinson*) - - - - - - - - - 19

Staining. — A further modification of Del Río Hortega's method of . . . oligodendroglia (*Penfield*) - 445

Streptococci. — Characteristics of . . . isolated from patients with rheumatic fever and chronic infectious arthritis (*Cecil, Nicholls and Stainsby*) - 619*

Streptococcic. — Experimental . . . inflammation in immune and hypersensitive animals with special reference to the pathogenesis of rheumatic lesions (*Clawson*) - 623*

Streptococcus hemolyticus. — Production of glomerulonephritis in rabbits by . . . (*Menten*) - 595*

Struma. — . . . of ovary (*Plaut*) - 603*

Struma. — . . . ovarii (*Goforth*) - 628*

Subcutaneous tissues. — The local effect of the injection of gases into the . . . (*Wright*) - 87

Sympathetic nerves. — Contribution to the study of the . . . of the appendix. The musculonervous complex of the submucosa (*Masson*) 217

Sympathicoblastoma. — Primary . . . of the skin of the thigh (*Jacobsen and Hosoi*) - 427

Syphilis. — Further studies on the precipitation test for . . . (*Weiss*) - 583*

T

Testicle. — The neutrotropism in the human . . . and hypophysis (*Berger*) - 628*

Thiocresol. — The use and the reasons for the use of . . . to stimulate wound healing (*Reimann*) - 594*

Thrombo-angiitis obliterans. — The pathological similarity of . . . and endemic ergotism (*Kaunitz*) - 299

Thymus gland. — The . . . in toxic and non-toxic goiters (*Giordano*) - - - 605*

Thyroid. — Notes on certain of the so-called sarcomas of the . . . (*Smith*) - 605*

Thyroid. — Skeletal metastases in carcinoma of the . . . (*Levin*) - - - - - 563

Thyroid. — Skeletal metastases in carcinoma of the . . . (*Levin*) - - - - - 605*

Thyroid. — The essential . . . changes in goiter (*Marine*) - - - - - - - - - 607*

Thyroid gland. — Blood vessel invasion in adenomas of the . . . (*Warren*) 604*

Thyroid gland. — Changes in the . . . of the guinea pig following a period of administration of potassium iodide (*Rabinovitch*) - - - - - - - - - - 71

Thyroid gland. — Histological studies of the . . . (*Hinton*) - - - - - - - - 599*

Thyroid gland. — Pseudotuberculosis of the . . . (*Morse*) - - - - - - - - - - 600*

Thyroid gland. — The effect of potassium iodide upon the . . . of underfed guinea pigs (*Rabinovitch and Gray*) - - - - - - - - - - - - - - - - - - - 75

Thyroid gland. — The interacinar epithelium of the . . . (*Moritz*) - - - - 605*

Thyroiditis. — Chronic . . . (*Connor and Searls*) - - - - - - - - - - - - - - - 601*

Tissue. — Studies in . . . -immunity. Cellular reactions of the skin of the guinea pig as influenced by local active immunization (*Cannon and Pacheco*) - 749

Tissue culture. — The specific cytotoxic action of tuberculin on . . . (*Aronson*) - 587*

Tissue reactions. — . . . in rabbits following intravenous injection of bacteria (*Nye and Parker*) - 381

Transplants. — The protective effect of splenic . . . in albino rats against bartonella muris anemia (*Perla and Marmorston-Gottesman*) 592*

Truncus arteriosus communis. — A congenital anomaly of the heart (. . . with subacute endocarditis) (*Finley*) - - - - - - - - - - - - - - - - - - 317

Trypanosome. — Blood changes during . . . septicemia (*Linton*) - - - - - 627*

Tubercle bacillus. — A study of the effect of . . . lipoids on the tuberculin reaction (*Long and Vorwald*) - 587*

Tubercles. — The calcification of . . . by means of irradiated ergosterol (*Spies*) - 337

Tuberculin. — The specific cytotoxic action of . . . on tissue culture (*Aronson*) - 587*

Tuberculin injections. — Results following intrarenal arterial . . . in normal and tuberculous monkeys, goats and swine (*Long, Huggins and Vorwald*) - 449

Tuberculin reaction. — A study of the effect of tubercle bacillus lipoids on the . . . (*Long and Vorwald*) - 587*

Tuberculosis. — A case of lymphoblastoma, Hodgkin's disease and . . . (*MacMahon and Parker*) - 367

Tuberculosis. — Avian . . . in normal and vaccinated rabbits (*Medlar*) - 593*

Tuberculosis. — The evolution of massive pulmonary . . . in the rabbit (*Medlar and Sasano*) - 628*

Tumor. — Glomeric . . . of the skin (*Simard*) - - - - - - - - - - - - - - - - - - 629*

Tumors. — Diagnosis of intracranial . . . by supravital technique (*Eisenhardt and Cushing*) - 541

Tumors. — Rapid diagnosis of intracranial . . . by supravital study (*Eisenhardt and Cushing*) - 615*

Tumors. — The significance of the muscular "stroma" of argentaffin . . . (carcinoids) (*Masson*) - 499

U

Urinary bladder. — Papillary adenoma of the . . . in the ox. Report of a case (*Feldman*) - 205

Urinary tract. — Mucoid neoplasms of the . . . (*Alter and McCarthy*) - - 627*

Urine. — The relation of the type of renal epithelial repair and renal function to the number and type of casts in the . . . (*MacNider*) - - - - 596*

V

Vaccinia. — A comparison of the lesions of fowl-pox and . . . in the chick with especial reference to the virus bodies (*Woodruff*) - - - - - - - - - 169

Vascularization. — The . . . of the epicardial and periaortic fat pads (*Robertson*) - 209

Vena cava superior. — Complete situs inversus of the . . . (*Halpert and Coman*) - 191

Venous drainage. — The . . . of the cat spleen (*Robinson*) - - - - - - - - - 19

Viridans. — (*a*) The spleen in subacute bacterial endocarditis of the . . . type. (*b*) Systematic classification of splenic pathology (*Fox*) - - - - 610*

Virus. — Cytoplasmic inclusions produced by the submaxillary . . . (*Pearson*) - 261

Virus. — Studies on the submaxillary . . . of guinea pigs. II. The nuclear cell, nucleocytoplasmic and inclusion-nuclear indices of the affected cells (*Scott and Pruett*) - 53

Virus. — The nature of fowl-pox . . . as indicated by its reaction to treatment with potassium hydroxide and other chemicals (*Goodpasture and Woodruff*) - 699

Virus. — The relation of the . . . of fowl-pox to the specific cellular inclusions of the disease (*Woodruff and Goodpasture*) - - - - - - - - - - - - 713

Virus bodies. — A comparison of the lesions of fowl-pox and vaccinia in the chick with especial reference to the . . . (*Woodruff*) - - - - - - - - - 169

Viruses. — A comparative histological study of acute meningo-encephalitis produced in rabbits by the . . . of neurovaccinia and herpes simplex (*Spooner*) - 767

W

Wound healing. — The use and the reasons for the use of thiocresol to stimulate . . . (*Reimann*) - 594*

Y

Yellow fever. — Regeneration of liver and kidney following . . . (*Klotz and Belt*) - 689

Yellow fever. — The pathology of the liver in . . . (*Klotz and Belt*) - - - 663

Yellow fever. — The pathology of the spleen in . . . (*Klotz and Belt*) - - 655
